

Ishwarya Suresh

UX Consultant

 [Portfolio](#)  [Ishwarya Suresh](#)  ishwaryasuresh97@gmail.com

PERSONAL STATEMENT

I'm a UX consultant who blends research depth with product sense to move the metrics that matter. From discovery and prioritisation to prototyping and delivery, I align teams on problem framing, define success, and iterate toward simple, accessible solutions. I've shipped in public-sector and startup contexts - improving engagement and completion rates, hardening accessibility, and de-risking roadmaps. Current work includes an architecture studio website, alongside health and edtech projects.

EXPERIENCE

MadeForHumans | UX Consultant  May/2025 – Present

Remote

- Built lightweight design systems (design tokens, component variants) in Figma; produced annotated specs and Inspect-ready handoff for developers.
- Embedded accessibility from the start (content design, colour contrast, focus/keyboard states) to WCAG 2.1 AA.
- For an architecture studio website, ran stakeholder & prospective-client interviews, competitive benchmarking, and produced research-driven information architecture, case-study templates, and user flows (RFP intake, press kit, careers) in Framer.
- Led mixed-methods research (interviews, moderated usability tests, surveys, card sorting / tree testing); synthesised with thematic analysis in Dovetail and prioritised data-informed roadmaps; triangulated with analytics review / heatmaps (Hotjar).

User Researcher | Ministry of Housing, Communities and Local Government  Jul/2024 – Apr/2025

Newcastle upon Tyne, UK

- Led UX strategy for government grants services; improved usability and achieved WCAG 2.1 AA compliance for 50+ Local Authorities.
- Planned and ran surveys, semi-structured interviews, and moderated usability testing; analysed findings with thematic analysis and affinity mapping; maintained ResearchOps and governance.
- Presented insights and service design recommendations to senior stakeholders; influenced product roadmaps with data-informed decision-making.
- Collaborated within an agile team of service designers, product managers, and developers to ensure user insights were seamlessly integrated into the development lifecycle.

Freelance UX Consultant  Sep/2023 – Jul/2024

UK, Remote

- Led end-to-end product design for a healthcare mobile app, mapped IA and simplified navigation in Figma, resulting in 115% engagement.
- Redesigned a remote-learning platform, prototyped interactive flows in Figma / Principle and refined content design, increasing course completion 120%.
- Conducted in-depth user research and iterative prototyping (Figma, Miro) for clients in healthcare, education, and tech, ensuring final designs aligned with user needs and business goals.

UX Designer / Researcher | Novacroft  Aug/2023 – Sep/2023

UK, Remote

- Led UX for the Transport for London (TfL) Care Leaver Oyster Card campaign, focusing on inclusive design to increase product accessibility and user adoption among vulnerable groups.
- Executed a full research and design cycle, including persona development, journey mapping, and prototyping (InVision), which enhanced UI/UX and improved user satisfaction.
- Worked closely with stakeholders to validate design solutions and collaborated with development teams for effective implementation.

User Research Intern | Nebula Labs  Feb/2023 – Apr/2023

Newcastle upon Tyne, UK

- Contributed to the "Me & You" digital app by leading a research project to enhance the quality of life for people with dementia.
- Synthesised findings from interviews, field studies, and co-design workshops into actionable design strategies for a digital tool for patients and caregivers.
- Collaborated with academics from Newcastle and Northumbria Universities, translating research insights into tangible design improvements validated through focus groups.

UX/UI Design Intern | AnywhereWorks/FULL Creative  Jan/2021 – Mar/2021

Chennai, India

- Redesigned the UI for the AnywhereWorks platform, contributing to an increase in user retention rates.
- Developed and maintained a design system and style guide, ensuring brand consistency and reducing development time across products.
- Improved the onboarding experience for the Switchboard app by simplifying workflows, which led to higher user activation rates.

EDUCATION

MSc. Human-Computer Interaction | Newcastle University  2021 – 2022

Newcastle upon Tyne, UK

- Specialising in Interaction Design, UX Research Methods, and Prototyping.
- Dissertation:** Co-designed and evaluated an ambient air quality sensing technology for workplace well-being, collaborating with a PhD researcher. This work was acknowledged in a paper accepted at the **ACM CHI 2024 Conference**.

Chennai, India

- Developed a strong foundation in design thinking, sustainable design, and systems-level problem-solving.

SKILLS

UX & Service Design — User Journey Mapping, Wireframing, Prototyping, Information Architecture, Storyboarding, Accessibility (WCAG), Service Blueprints, Inclusive Design.

User Research — **Qualitative:** User Interviews, Usability Testing, Ethnographic Studies, Co-design Workshops, Focus Groups, Diary Studies, Participatory Design. **Quantitative:** Surveys, A/B Testing, Card Sorting, Tree Testing, Analytics Review, Click & Eye-Tracking Studies.

Synthesis & Analysis — Thematic Analysis, Persona Development, Actionable Insights, Data-informed Strategy, Dovetail, ReCollective, Hotjar.

Design & Prototyping — Figma, Sketch, Adobe Creative Suite (Photoshop, Illustrator), InVision, Principle.

Data Visualisation — Tableau, Power BI, and creating visual reports of qualitative and quantitative insights.

Collaboration — Agile Methodologies, Cross-functional Team Leadership, Stakeholder Management, Workshop Facilitation, Mentoring.
